

SEZIONATORI DA FONDOQUADRO - SERIE SZ

DIN RAIL MOUNTING DISCONNECTORS - SZ SERIES

Gli interruttori-sezionatori modulari della serie SZ, consentono l'interruzione e il sezionamento sotto carico di macchine e linee di bassa tensione con correnti nominali da 16 a 200 A. Sono abitualmente impiegati nelle seguenti funzioni: interruttore generale, interruttore per partenze motori, interruttore di sicurezza, sezionatore. Caratteristiche generali: alto potere d'interruzione (AC22 A - AC23 A), doppia interruzione per ogni polo, elevata durata meccanica ed elettrica, esecuzione modulare, montaggio su profilato DIN 35 mm e a vite.

The modular switch disconnectors of SZ series, allow the breaking and the disconnecting on load of equipment on low voltage at nominal current from 16 to 200 A. They are commonly used for the following purposes: main switch, switch for motors, safety switch, disconnecter. General characteristics: high breaking capacity (AC22 A - AC23 A), double break contacts, high electrical and mechanical endurance, modular execution, basic mounting on 35 mm DIN rail and by screws.
